

GSM gateways

GSM105

Universal GSM gateway.

MAIN FEATURES

- Universal phone interface (PSTN).
- Connection on line input.
- Caller ID visualization.
- External antenna with magnetic base and 2.5 m. of wire.
- Remote control of GSM signal level.
- SIM credit control.
- PIN management.

SIZE

120x101x46 mm

TECHNICAL DATA

Input voltage: 10-18 V dc.

Maximum Electric current absorbed: 1 A.

UPS: battery charger 12V.

Resting voltage: 24 V DC balanced.

Maximum current: 30 mA.

Ring voltage: 30 V eff. 25Hz +/- 5% balanced.

GSM radio module: Quad-band 900/1800/1900 MHz.

GPRS Radio module: class 10.

Line interface - resting voltage: 30V.

Line interface - maximum current: 30mA.

Line interface - ring voltage: 30V eff 25 Hz +/-5%.

Installation: Fixing on din bar.
